

What are the Akashic Records?

The Akashic Records are like a supercomputer holding all the information for the universe. Including all universal events, thoughts, words, emotions, and intent ever to have occurred in the past, present, or future in terms of all entities and life forms, not just human.

In my experience within the Akashic Records over many years, I witnessed and experienced radical transformation based on the information presented by both mine and my clients guides, masters, teachers, and loved ones. Most of the time we as humans walk the Earth trying to make it through in a veil of confusion, frustration, exhaustion, etc. We are typically curious by nature and try to understand or figure out what is happening to us or within us and why. Everything that contains energy has its own Records.

Anyone can access their own Records, just like everyone is psychic. The Records are accessed in a high vibrational state using natural and/ practiced psychic ability. The method for opening the Records is dependent on the individual who is gaining access.

The main facet of these Readings for yourself or others is the questions you ask. It is important to know exactly what information you wish to extract as the Records are infinite information. The more exact in your question the more clarifying the answer you will receive. This is not to say you may not access the Records without exact questions. I have done so many times for both myself and my clients without clear questions, but the information gained is typically more in the vein of general guidance instead of specific guidance and answers. I have included sample questions at the bottom of this page to help you form your own questions. You will also receive them upon booking.

What can we do in the records?
